

WORKPLACE LEARNING

Teacher's Report

Sandy Hodge
Program Coordinator

A huge thank you to all the local businesses in the community. With your continued support the students at Halls Head College Education Support Centre have had the opportunity to experience and demonstrate their Core Skills for Work, while exploring their job interests.

The students have been enrolled in Endorsed Programs through the School Curriculum and Standards Authority (SCSA). All three programs contribute to the Western Australian Certificate of Education (WACE) Statement of Results. Authority Developed Workplace Learning (ADWPL) requires the students to complete a minimum of 55 hours in the workplace and demonstrate a variety of Core Skills for Work that have been identified by employers as being highly desirable. The Preparatory Award Towards Independence modules, Vocational Training and Experience (VTE) and World of Work (WOW) provide an opportunity for students to experience a work environment in local businesses and learn about and begin to develop skills in a variety of industries. Most students participated in Workplace Learning over all four school terms which provided the students with an opportunity to participate in a supported work environment in the community and develop skills that are transferable to all forms of employment or further training.
